

ENES GARİP

Software Engineer

Bursa, Türkiye · enes98.garip@gmail.com · github.com/enesgarip · linkedin.com/in/enesgarip · enesgarip.com

PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience in the .NET ecosystem, specializing in backend development, API design, and database optimization. Currently at Intertech in the ATM Banking domain, building large-scale financial applications and microservice-based back-office systems for Emirates NBD with C#, .NET Core, React, TypeScript, and SQL Server. Passionate about writing clean, maintainable code and continuously improving system performance.

TECHNICAL SKILLS

Languages	C#, TypeScript, JavaScript, SQL, Python, Java
Frameworks	.NET Core, Entity Framework, ASP.NET MVC, React
Databases	SQL Server, PostgreSQL, Supabase
Concepts	RESTful APIs, Microservices, Layered Architecture, Unit Testing, CI/CD, PWA
Tools	Git, Jenkins, Docker, Jira, Visual Studio, VS Code

PROFESSIONAL EXPERIENCE

Software Engineer — Intertech

Nov 2022 – Present · İstanbul / Bursa (Hybrid)

- Develop and support end-to-end ATM software in the ATM Banking domain for large-scale financial operations.
- Build Emirates NBD back-office screens with React and TypeScript on a microservice architecture (since 2023).
- Design backend APIs with C# and .NET Core; improve SQL performance and optimize stored procedures.
- Collaborate with cross-functional teams to deliver scalable and secure financial systems.

Software Engineer Intern — Intertech

Aug 2022 – Sep 2022 · İstanbul

- Built an Ethereum smart contract in Solidity enabling time-locked transfers, with a React frontend.
- Completed trainings on React, microservices, blockchain, and Figma.

Engineering Intern — Şifre Yazılım

Jul 2021 – Sep 2021 · Bursa

- Developed web applications, Windows Forms desktop applications, and MSSQL-backed projects.

PROJECTS

Emirates NBD ATM & Back-office Systems

2023 – Present

End-to-end ATM software and back-office systems built with C#, .NET Core, EF Core, React, TypeScript, and SQL Server.

Personal Finance App

github.com/enesgarip/financeproject

Turkish personal finance tracking PWA built with React 19, TypeScript, and Supabase.

Sohbetlik — AI-powered Chat PWA

github.com/enesgarip/sohbetlik

AI-powered social & chat progressive web app built with TypeScript.

Blog Site Application — Kodluyoruz Academy

2021

Full-stack blog application with ASP.NET Core MVC, Entity Framework, and SQL Server.

EDUCATION

Marmara University — B.Sc. in Computer Engineering

2017 – 2022
